

NDACAN PRODUCTS AND SERVICES

DISSEMINATION OF DATASETS AND TECHNICAL SUPPORT

The Archive acquires and distributes datasets to eligible faculty and staff at research centers having an Institutional Review Board (IRB) recognized by the U.S. Office for Human Research Protections (OHRP). NDACAN distributes all datasets (data files and documentation) free of charge. NDACAN provides free technical support to data users and data contributors.

SUMMER RESEARCH INSTITUTE

NDACAN sponsors an annual on-line workshop for secondary data analysis called the Summer Research Institute (SRI). The Institute promotes the use of Archive datasets to facilitate the publication of research findings in the academic literature. Participants are selected on a competitive basis from a wide variety of disciplines. The SRI Application is posted on our Web site in the fall.

ON-LINE CITATIONS DATABASES

NDACAN has built and maintains a citations database for child welfare researchers called the child abuse and neglect Digital Library (canDL). The canDL lists publications related to datasets archived at NDACAN. These citations databases are linked to in the Bibliography section of the NDACAN Web site.

CMRL LIST SERVE FOR CHILD MALTREATMENT RESEARCHERS

NDACAN runs a free on-line discussion group (also known as a listserv, list, or electronic mailing list) called the Child Maltreatment Research list or CMRL. The CMRL is a major scholarly discussion group in the child welfare field with hundreds of subscribers. The scope of the discussion group includes all areas of child abuse and neglect research (e.g., epidemiology, etiology, prevention, consequences, intervention, and treatment) and the full range of research issues (e.g., measurement, instrumentation, statistical analysis, ethics). The list is not open to discussions of program or clinical issues except as they relate to evaluation research. To join the CMRL please visit our Web site.

NDACAN WEB SITE AND NEWSLETTER

The NDACAN Web site contains free dataset documentation, our list of holdings, ordering instructions, and user support information. On the Web site, researchers can join our mailing list to receive our electronic newsletter and SRI announcements.

**National Data Archive on
Child Abuse and Neglect
(NDACAN)**

The National Data Archive on Child Abuse and Neglect (NDACAN) facilitates the secondary analysis of research data relevant to the study of child abuse and neglect. NDACAN acquires, preserves, and disseminates data for qualified researchers to explore important issues in child maltreatment. NDACAN supports analysis of its datasets by providing technical support, workshops, and researcher networking.

Funding for NDACAN is provided by the Children's Bureau, an office of the Administration for Children and Families (ACF), Department of Health and Human Services (HHS).
